\*Number available based on preliminary projections of number of families that would be interested in rent-to-own option. Should more requests be made for the rent-to-own option than there are contracts available, requests will be honored on a first requested / first honored basis.  
 \*\* Please see next page to select your filtering option of choice.

# St. James Academy 2012-2013 Laptop Pilot Program

## Internet Filtering Options

Parent Choices for Home

(regardless of who owns the laptop)

### Option 1: Limited Internet Access at Home

Students will be blocked from all streaming media and social networking sites (i.e. YouTube, Facebook, etc.)

### Option 2: Current SJA Configuration

Students will remain at current SJA blocking levels. The student will have access ONLY to those sites deemed necessary for their school needs. It does allow access to YouTube. It does not include any access to social networking sites (i.e. Facebook, MySpace, etc.)

### Option 3: Parent Controlled Access

If you select this option, there will be limited internet filtering for your student while at home. Parents will assume full responsibility for all access to all sites. (Note: parents are reminded that they can select blocking through their own internet service provider.)

While in the school building, all computers (owned or rented) will be subject to the blocking restrictions designated by St. James Academy. The above selections affect only internet filtering at home or outside the SJA campus.

**Only St. James Academy imaged laptops are permitted on this campus at any time.**

There is no charge for this service to parents.
